HAPPY NEW YEAR

At the beginning of all the Covid restrictions our outlook was that we were in this together, and together we could get through anything! Looking back over the last year we can say that we more than accomplished that. Staff, residents and families all had a very important role to play in making 2021 a year filled

with moments of loving and fun filled connections. 2022 promises to be another great year. A special thank you to all our families for sharing your loved ones with us and giving us the pleasure of knowing you as well.

*We Wish You All A
Healthy and Happy
New Year*
